

**List of available sessions from the 50th Annual Meeting, 9-12 October 2009, Hamburg,
Germany**

Welcome - N. Marlow

Welcome - J. Van Goudoever

Welcome - A. Von Der Wense

Prematurity and plasticity

D. Gadian

Examining the host-pathogen interface for novel therapeutic targets

V. Nizet

Fetal adaptations to environmental disturbances under and over nutrition

W. Hay

Epicure 2

K. Costeloe

Intrauterine growth retardation and long term effects

Jane Harding

Mechanistic insights in perinatal asphyxial brain injury

H. Hagberg

Personality in adults who were born very preterm

C. Loeth

Neuroprotection with 24h inhaled 50% xenon combined with therapeutic hypothermia in a piglet model of perinatal asphyxia: a randomised study

D. Kelen

Iron supplements reduce the risk of iron deficiency anemia at 6 months in swedish marginally low birth weight infants

S. Berglund

The effect of neutral and acidic oligosaccharides supplementation on serious infectious morbidity in preterm infants: a randomized controlled trial

E.A.M Westerbeek

The effect of chronic lung disease on white matter anisotropy in preterm infants

G. Ball

Improved gut barrier function via increased threonine utilization may explain enhanced resistance to necrotizing enterocolitis in preterm pigs fed colostrum

M. Jensen

Experiences from the swedish express study - focus on data collection, validation and bias limitation

K. Källén

Epipage

P.Y. Ancel

Parenteral nutrition with a lipid emulsion based on soybean oil, MCT, olive oil and fish oil in preterm neonates

H. Devlieger

The effect of bolus or semi-continuous feeding on tolerance in preterm infants : a randomized controlled trial

L. Rovekamp-Abels

An exclusive human milk-based diet reduces the incidence of nec in infants 500-1250 grams birth weight (BW)

R. Ehrenkranz

How to assess the impact of protein content in follow-up formula during the second half-year of life?

E. Lachambre

Effect of home based child care and nutrition improvement on child mortality in a tribal population: results of field trial

A. Satav

Randomized trial of slightly delayed cord clamping (DCC) versus milking of the cord in preterm infants

A. Jewison

NIPPV versus SIMV after surfactant treatment for respiratory distress syndrome in preterm infants < 30 weeks\ ' gestation; multicenter, randomized, trial

R. Ramanathan

Impact of moving smart intervention on physical activity levels in bronx elementary school students

M. Reznik

Changing knowledge and behavior concerning infant crying and shaken baby syndrome in Japan: a randomized controlled trial

T. Fujiwara
